

## Activate the Academic Mind in Busy Clinicians

**Eileen Moser**

Penn State College of Medicine

---

**Target** Doctor, Early Career Physicians, Senior Resident, Resident (1-2 years after graduation), Medical Student

---

As clinicians, clinician-educators and clinician-administrators, our days are filled with important work. Yet, there is reward in performing scholarship and disseminating our findings as it extends and promotes internal medicine. This session will review the definition and types of scholarship, suggest methods to fit scholarship into the busy clinician's schedule, and provide tips on how to be successful in creating and disseminating scholarship.
