## 私と ACP

### The history of our Chapter

ACP (米国内科学会) 日本支部長 **前田 賢司**前田 賢司  
Kenji Maeda**Kenji Maeda, Governor, ACP Japan Chapter****対象者** 医師, 後期研修医 (卒後 3 年目以上), 初期研修医 (卒後 1-2 年目), 学生, その他**Target** Doctor, Senior Resident (3+years after graduation), Resident (1-2 years after graduation), Medical student, Others

日本支部が出来て今年で 16 年になります。日本人医師がアメリカの学会に入会できるようになったのは、初代支部長の黒川清先生のご尽力によるところが大でした。そのお陰で私も 1996 年に会員になることが出来ました。しかし当初は日本人会員数は少なく、支部を作るほどの人数に達していませんでした。日本内科学会の内科専門医会でも入会を呼びかけ、私も専門医会の委員会で入会者の勧誘を行う活動を行っていました。やがて ACP 本部とも日本支部設立の可能性を議論する事が出来るようになり、2002 年の京都での国際内科学会（黒川先生が会頭でした）の機会に当時の ACP 会長や担当者を交えた会議が行われ、翌年 2003 年に日本支部設立が認められました。日本支部設立までの簡単な経緯を含めて私なりに見てきたこと、感じたことをお話致します。

It has been 16 years since the Japan Chapter was established. Many young members may not know the history how we Japanese physicians came to be able to join ACP in the beginning, it was realized by Dr. Kiyoshi Kurokawa's efforts spent to let ACP office notice that FJSIM physicians are board certified physicians as American ACP members. Thanks to Dr. Kurokawa, I myself became a member in 1996. However, there were not so many members in those days so that the association of FJSIM (Sen-mon-i-kai) had to appeal to its members to join ACP, I was a co-chair of a committee to do the task. In the end, members were increasing so that we could talk about the possibility of the Japan Chapter with the ACP HQ office. After several meetings, we held the last meeting with the then ACP President Dr. Walker and international ACP staff in 2002 in Kyoto when the World Congress of Internal Medicine (WCIM) was held under the then President Dr. Kurokawa, and in the next year the Japan Chapter was authorized the establishment. I will talk about this kind of history of our chapter in Japanese language.
